ALOHA E KOMO MAI!

PVT LAND COMPANY

Celebrate the Best of Us

For many years it has been our privilege to support schools, community organizations, and athletics on the Waiʻanae Coast.

Along the way, we've come to know thousands of people—students, teachers, community leaders, and everyday citizens—who truly represent the best of us.

Today, COVID-19 occupies our thoughts. But it's important to also keep in mind the many people who make us a resilient community. Through their efforts, and our own, we will return to familiar ways.

For our part, PVT will continue to support our schools and community.

We will also contribute to Hawaiʻi's economic recovery. As the only facility designated for construction waste, PVT provides essential services to Oʻahu's construction and trucking industries—and supports the thousands of jobs that come with them, including many on the Waiʻanae Coast.

These are uncertain times. But we're certain that by supporting one another there are better days ahead.
